

Rev Samuel May, Jun of Worcester

[am. Dec. 7/59.]

Dublin Nov. 10. 1859

My dear Friend

Richard Davis Webb

I mean Samuel May, Jun

This confusion is all owing to the buzz
of talk going on around me from
the language of my wife, my two
daughters & two sons, Richard
having arrived at home this blessed
day. He looks in good health &
spirits - and speaks as he has a
good deal to do, in the warmest
terms of their kindness of my
American friends. I am sure
you have all paid ten times over
any attention you have ever read from me

But I don't want to be loaded - or
that you should think I want to
suppose that friends should keep
a list of accounts with one another.

Mrs. Palmer (late Maria Waring)
wishes to get Mrs. Dall's Lectures "Woman's
Right to Labor" after they have been
printed in pamphlet form. Also
that Lewis Herald should be sent
to the address of Dr. Palmer, Parade
Waterford, during the ~~half year~~^{3 months} that
they contain the reports of the Me-
thodist Conference. If this
concerns you any particular
trouble I beg you not to inconvenience
yourself about it. - I am writing the
above I have had a letter from Mrs.
Palmer asking me to procure for her a
copy of Peter's State. She regrets the long dra-

known in that book which nobody
overheard - as she thinks so do I
that such facts of repenting take
away from the verisimilitude of
the books in which they appear.
I would like also to get a copy of
the letter or essay that Gerritt
Smith has published respecting his
repentance of meane.

Could you send me any facts of
people repudiating the position of the
Society of Friends as an A. S. body
or as to the complicity of its
members in slavery, how far this
(if such has existed) has been believed
by the body of late years. It is the
orthodox body I chiefly refer to. The
Hickites are not acknowledged at all
in their countries.

My reason for saying is that Maria
Webb has been carrying at times
affections which Miss Remond & her
may alluded to, as to the A.S. lists
in the U.S. among which the Friends
were not included. Nothing would
give her greater pleasure than to find
a number of the A.S. tripping

Yours affectionately

Rich^d Webb

Be sure to say when you write how
you Oriental youth prosper. I suppose
I told you how charmed everybody
was with your cousin Samuel. He
reared to an angel in broadcloth
of any man I have ever seen.
